

#14 – support for comments

Reported by @UnquietCode

Milestone: Version 2

Support comments in the generated markdown. See the example `issues.py` in the root of the repository for a starting point. The comments can be rendered in a new section after the end of the issue description.

Maybe something like....

@UnquietCode wrote on January 4th, 2021:

| Comments are cool.

And

| multiline
| comments t00

- ☒ titles are good
- ☒ body is good
- ☒ spacing is good

@iceplant wrote on Wednesday 13 January 2021

Block quotes aren't implemented so I'm just leaving the comment body as a paragraph. I can add that if it's important.

Edit: "quote" is a block quote.
